2023-2024 School Accountability Report Card (Published During the 2024-2025 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

A hard copy of the School Accountability Report Card is available at your School Office, upon request.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

Admission Requirements for the University of California (UC)	Admission requirements for the UC follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements, please visit the UC Admissions Information website at https://admission.universityofcalifornia.edu/ .
Admission Requirements for the California State University (CSU)	Eligibility for admission to the CSU is determined by three factors: (1) Specific high school courses, (2) Grades in specified courses and test scores, and (3) Graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information, see the CSU website at https://www2.calstate.edu/ .

2024-25 School Description and Mission Statement

The Special Education Department at SCOE offers a range of services to students with extensive support needs that promote an engaging and positive learning environment. Using a standards-aligned curriculum, Unique Learning Systems (ULS) for students with extensive support needs, teachers are providing instruction that addresses the state standards and is adapted to meet the individual learning needs of each student. In addition, Mobility Opportunities Via Education/Experience (MOVE) Curriculum further addresses the specialized motor and physical needs of students to facilitate access to educational and community opportunities. SCOE has implemented the MOVE curriculum for many years and in 2007 became a Model Demonstration Site. Services provided by highly qualified specialists in speech and language development, vision, orientation

and mobility, and nursing ensure a program that educates the whole child. We also partner with referring school districts to offer Occupational Therapy, Physical Therapy and Adapted Physical Education services to meet those needs for our students. Students are educated in classrooms located on comprehensive campuses throughout the county, which provides opportunities to interact with nondisabled peers daily.

A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

2024-25 Quality, Currency, Availability of Textbooks and Other Instructional Materials

All students with severe disabilities have access to standards-based core curriculum that is linked to the following alternate assessment areas: communication, self-care/independent living, mobility/motor skills, functional academics, vocational, social emotional, and recreation/leisure. The adopted curriculum addresses the unique needs of each student while addressing independence and self-advocacy.

School Facility Conditions and Planned Improvements

Each classroom that houses a class for students with extensive support needs is maintained to ensure the health and safety of the students and staff who use the room daily. Foundations Academy is a collection of classrooms that are located throughout the Sacramento area. Therefore, the facilities which the classrooms are located reside within several different school districts. SCOE collaborates with district personnel to provide appropriate building maintenance and repairs. Teachers and classroom staff are provided with supplies that enable them to have a healthy environment. All of the facilities meet current building codes for safety and are maintained to ensure the health and safety of the students and staff who use classrooms daily. Facilities inspections are ongoing, and custodial services are provided to ensure a healthy environment for students and staff. SCOE's maintenance staff ensures that the repairs necessary to keep the schools in good working order are completed in a timely manner. A work order process is used to ensure efficient service, and emergency repairs are given the highest priority. Classrooms and restrooms are adapted and equipped to meet the students' needs.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2022-23	School 2023-24	District 2022-23	District 2023-24	State 2022-23	State 2023-24

2023-24 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus

the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2023-24 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

CAASPP Test Results in Science for All Students

This table displays the percentage of all students grades five, eight, and High School meeting or exceeding the State Standard.

Science test results include the CAST and the CAA for Science. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA for Science divided by the total number of students who participated in a science assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

2023-24 Career Technical Education Programs

Dropout and Graduation Rate:

The SCOE Special Education programs for students with moderate/severe needs follow an alternative, standards-based curriculum that addresses the individual student goals as delineated in their IEPs. This curriculum focuses on functional skills and does not lead to a diploma as defined by the California Education Code. Students are recognized with a Certificate of Achievement.

WorkAbility:

The WorkAbility Program provides funding to students with moderate/severe disabilities to help them prepare to transition successfully from school to the adult world. Students participate in curriculum designed to maximize independence and develop skills related to work experience and daily living skills, which addresses their post-secondary transition goals. Many of the activities take place through Community-Based Instruction (CBI) and are based in a variety of community settings typical of adult life activities.

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2024-25 Opportunities for Parental Involvement

Parents and guardians of students enrolled in special education classes designed to serve students with moderate to severe disabilities have many opportunities for involvement. These experiences include Individualized Education Program (IEP) meetings, Back to School Nights, Open Houses, English Learner Advisory Committee (ELAC) meetings, as well as specialized activities put on by individual school sites and classrooms throughout the school year.

2024-25 School Safety Plan

All of the classes in the Special Education program are located on campuses of schools within the districts that SCOE serves. Elements of the school safety plan include Fire Emergency Procedures, Shelter in Place Procedures, Emergency Contact Protocol, and Earthquake Emergency Procedures. Each classroom has an emergency procedure chart for immediate access.

2024-25 School Safety Plan

A Safety Committee reviews the existing safety plan on an annual basis and staff meetings may involve ongoing reviews of the Site's Safety Plan. The classroom staff ensure that the front office has essential information for each student enrolled in the SCOE class and have a plan in place with their colleagues for getting assistance in evacuating students who are not independently mobile. Classroom staff are trained in bloodborne pathogens, mandated reporter, first aid and CPR.
